D·M·C LIBRARY

In the endeavour to develop the taste for fancy needlework and to make the use of the numerous articles made specially for sewing and embroidery by the SOCIÉTÉ ANONYME DOLLFUS-MIEG & C^{ie} better known, the Society has published a series of works which together form a complete library of information dealing with every known kind of needlework.

Each album is composed of a series of very varied designs with an explanatory text by the aid of which it will be found easy to carry out even the most complicated work.

Although these publications — by their artistic value, the choice of the designs, and the attention applied to their execution — surpass all that has ever been done in this line before, yet, they are sold at a price quite inferior to their real value. They could not have been produced under more favourable conditions, in consequence of the important editions and their intended aim.

All these publications are edited in French and German, and some in English (*). As the text however is but of secondary importance while the designs are the principal feature, all these works can be used to great advantage even in the countries where other languages are spoken than those in which they are edited.

Further on will be found a description of these publications which can be obtained of booksellers, mercers and at needlework depôts or of the editor direct, TH. DE DILLMONT, MULHOUSE (Alsace).
